From every train arriving yesterday an observer would have noticed alight dozens in his hand a round grip looking affair that closely resembled a dynamite bomb. It had a strong leather handle, looked heavy and dil in appearance closely resemble the instruments used by Russians to get rid of their public officials. Had the same observer read the sporting pages of the leading papers of the west of late he would have at once kncwn it was the horde of western bowling experts come to Zion to bowl with the Saints, and the grip looking affairs each carried the owners' favorite ball with which he hoped to carry home the western bowling championship.

Last night had one visited the various bowling alleys in the city he would have seen these same persons with the afforementioned balls knocking down ten pins as if their life depended upon seeing how many pieces could be made out of the stick of wood used as a ten pin. Crowds of spectators packed the alleys and watched the play and many wondered what kind of a chance Salt Lake's expert alley men would have in competition with the best there is in each of the large cities of the west.

Among those who keep the pin setters busy during the evening was T. E. Burke, a member of the Imps of San Francisco team, who leads the bowlers of the metropolis of the Pacific coast with an average of over 200 for the season's bowling. Mrs. H. C. Scott, the champion woman bowler of the Pacific coast received the glad hand time and time again—strike after strike showed she could bowl some on strange alleys.

Then there was Kruppinger and his track and the Reprobate as the powner of the pacific downer of the pacific downer.

It was an evening of warming up of what may be expected for the remainder of the week in Salt Lake, while the bowlers own the town.

Then there was Kruppinger and his bunch of Denver cracks who seemed to deal in nothing but strikes. A. W. Martin, president of the W. B. It is totally different from the many sickening pills and tablets, and the stimulating, stomach-ruining drugs given by would-be specialists. My specific treatment for all given by would-be specialists. My specific treatment for all the symptoms indicating. Failing Manhood is harmless though so effective as to remove them immediately. It is constitutional; therefore, by purifying and enriching the blood, strengthening the nervous system, nourishing the tissues, the patient becomes strong and healthy with all signs of trouble forever gone. The treatment is to the human system what the sap is to the tree—it buds energy, ambition and confidence that leaf into a prime, healthy, vigorous feeling of new life.
